

## **ENVIRONMENTAL POLICY**

- To create environmental awareness in all of our stakeholders, to ensure sustainability of our environmental management system,
- To make improvements to reduce our environmental impacts and prevent pollution in accordance with the environmental sustainability goals, to create environmental awareness in our employees,
- To take necessary measures for sustainable waste management and to reduce the consumption of natural resources. To comply with all relevant laws and decisions of Gebze Organized Industrial Zone and Local Environmental Boards, to give support to environmental organizations. To take measures to reduce carbon emissions by avoiding activities that can contribute high carbon emissions and deforestation.

Policies are open to access by and communicated to all relevant parties that have relationship with Aromsa.
