

PROCUREMENT POLICY

- We purchase from suppliers included in our approved suppliers list, who are customer satisfaction oriented and reliable, and have awareness in occupational health and safety, environment, quality, food safety and social responsibility.
- With the aim of a sustainable supply chain, we build long term relationships with our suppliers with long-term contracts, based on mutual trust, effective communication, business partnership and a win-win approach.
- Effective market research is made before purchasing goods and services at the right quality and amount and at the right time with optimum conditions.
- Local suppliers are used to provide support and help them improve.
- Procurement is done in accordance with the principles of our partners, and policies, procedures and targets of our company.
