

PRODUCTION POLICY

- The goal is to carry out the planned production with zero work accident, on time and to ensure full customer satisfaction in competitive conditions.
- The order of priority to achieve this goal is as following:
 1. occupational health and safety,
 2. food safety,
 3. quality,
 4. environmental management,
 5. risk management,
 6. efficiency and cost
- Work conditions and corporate culture are adapted according to these above priorities.
- In order to improve the production process continuously; team work, communication, recognition and rewarding and training programs are supported.
- Innovative approaches are valued by believing that employees make the difference in production.
- In addition to short term solutions, long term approaches are also reviewed and considered for production operations.

Cooperation among employees and a flexible labour force are ensured by improving machinery and process knowledge of employees with continuous training.
